

# TOP 3 TIPS

FOR NEWBIE ENTREPRENEURS TO HELP MAKE  
YOUR BUSINESS IDEA A SUCCESS

FROM AIDAN VUOCOLO WITH  
STORIES BEHIND THE GRIND

1

## SURROUND YOURSELF

with a supportive network that will challenge you and help you grow.

2

## HAVE CLARITY

on why you're pursuing your idea. (If you've got multiple whys, that's even better.)

It's something you can refer back to when you're in a bit of a slump and wanting to break out, then you can go back to "Well, why did I start the idea?" And go from there.

3

## TAKE ACTION

Take as much action as you can and as you feel comfortable doing, Even baby steps.

Little things done consistently over time is better than a massive jump or a massive action that's never done.

## ***BONUS:***

- Don't be afraid to make a change, pivot, and recognize when things aren't working.
- Do not let your ego get in your way. Be mindful of it and realize when it's hindering you.
- Having a supportive network isn't surrounding yourself with people that just say yes to your ideas all the time. A supportive network is one that is going to call bulls\*\*\* and challenge you to think of things in a different way, think of things in a different perspective.
